# **Required Summer Work**

# Prevent the Summer Slide!

Studies show that children who do not read during the summer lose up to 2 months of reading performance. This means that by the time a student is in upper elementary, they may be 2 1/2 years behind!

How do we prevent the summer slide?

1. Be sure your child reads at least 20 minutes a day.
2. Visit your local library.
3. Set a good example.
4. Read to and with your child.
5. Read for different purposes.
6. Play games with words.
7. If you have access to an electronic device, there are tons of interactive books and apps that address phonics and reading skills. Scholastic has a great summer program.
